

# Projekter finansieret af ATP's grønne obligationer

ATP ønsker fuld transparens om de projekter, som vi er med til at finansiere i gennem vores grønne obligationer. Af de grønne obligationsudstedere, som ATP har investeret i, er det kun den Europæiske Investeringsbank (EIB), som forbinder de enkelte projekter med en såkaldt ISIN-kode, der kan identificere et værdipapir. Denne liste viser de projekter, som ATP har inve-

steret i via vores grønne obligationer i EIB. EIB offentliggør, hvor stor en del af projektet der er finansieret af kapital fra grønne obligationer, og hvor stor en allokation fra den enkelte grønne obligation der er lagt i projektet. På EIB's hjemmeside kan man læse mere om de enkelte projekter.
